Plugin name: *WP Stream Player*

Plugin website: *http://www.geniolabs.com/wp-stream-player-plugin/*

Plugin version: *1.0*

Plugin release date: *04 Fev 2014*

You can use WP Stream Player shortcode in any page, post or widget on your wordpress website/blog.

**What you need is calling the shortcode from editor or using the wp_shortcode() directly from php code.**

Index

▶ WP Stream Player Shortcode Syntax

[**wp-stream-player url**="your_stream_url" **type**="mp3|asx" **autoplay**="yes|no"]

- **Url**: the url of your audio stream.
- **Type**: in case of mp3, nsv, ogg or rtp streams you should mention "mp3" as type. In case of using an asx stream you should put "asx" as a type.
- **Autoplay**: "yes" for autoplay when the page is loaded, "no" to let the user play the stream.

▶ Shorcode Generator

To avoid writing manually shortcode for WP Stream Player you can access to the plugin options "WP Stream Player" under "Settings" Menu and fill the simple form to get a ready to use shortcode. Enjoy using WP Streaming Player.

Look and Feel Customization

For the player controls, you can change the images used as controls. The images are located under wp-stream-player/css/. "**Play**" and "**Pause**" controls dimensions are: **80px** X **80px. "Mute" and "Max volume"** dimensions are **35px** X **25px.** Feel free to change the CSS properties to meet your favorite design.
